ENDURANCE is an international survey exhibition tracing the work of 38 visual and performance artists who, individually and collectively, test the physical, mental, and spiritual endurance of the body. Included are works derived from performances, body art actions, and conceptual pieces from 1916 to the present concentrating on art from the 70's, 80's, and 90's. The show will focus on selected photographic documentation from key works that exemplify acts of endurance done in real time.
